FEED BACK

"... Just a short note to express our thanks for a wonderful day on Friday. I would have no hesitation in recommending you to other schools, so please free to use Carr Hill in this way. Sally Cookson, Teacher."

Thank you for a great lesson on the steel drums. I liked like the noise they made and I liked performing in front of the whole school. I think you're a great teacher and you taught us in one afternoon.

"The workshop was excellent. You have a wonderful ability to relate to youngsters of all ages."

Inspector

I have enjoyed the steel drums a lot and I wish I could do it again because it was such fun. I did not think we could learn so much in one hour and fifteen minutes... Thankyou for every thing you did
